#### RIDE RULES & REGULATIONS

We have plenty of rides for everyone! We want you to have an enjoyable day and are committed to providing you with a safe environment. For your safety, every ride has a height restriction approved by AEDARSA and ride manufacturers. You can measure yourself at the front entrance "Ride-O-Meter" or at Guest Services. Please note: the "Ride-O-Meter" is for reference only. Individual ride height sticks will be taken as correct.

#### In General:

- Remain seated in an upright, forward facing position until the ride has come to a complete stop.
- Please keep all parts of your body inside the ride unit at all times.
- Secure loose items (hair, cameras, cell phones, glasses, wallets, hats, keys, etc.) or leave them with a non-ride.
- Keep your seatbelt, lap bar, or shoulder harness fastened until the ride has completely stopped.
- No picture taking or video recording while riding.
- You are responsible for your personal belongings.
- Please finish food or drinks before entering the ride line-up.
- Rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature, health and body proportion. These safety systems may place restrictions on the ability of an individual to safely experience the ride. If in doubt of your ability to safely experience a ride, we urge you to consult with the ride operator or visit our Guest Services location.
- Line-jumping is not permitted. Challenge those who jump the line – you deserve respect! Line jumpers may be removed from the park.

**Parent Swap:** We have an arrangement which may help you if you have small children but no provision for childcare while you ride height restricted rides. One responsible person may wait with the child at the entrance while the rest of the party rides the ride. When the ride is complete, the parent may "hand off" the small child and board the ride. If with another child of appropriate height, that child may ride again with the other parent. Please make the ride operator aware that you are in this situation, they will accommodate you.

#### RIDE AVAILABILITY

Select rides and attractions will not operate in rain, high winds, lightning storms, or other inclement weather conditions. The park may close early if these poor weather conditions are persistent or unusual. Please see Guest Services for a current update. Other rides may be subject to closure throughout the day for cleaning purposes or routine maintenance. Calaway Park will make every effort to re-open the ride as soon as our standards are met. Ride lineups may close early in order to process all Guests within the line up, prior to park closure.

#### PATRON RESPONSIBILITY

There are inherent risks in the participation in or on any amusement ride, device or attraction. Patrons of an amusement ride, device or attraction, by participation, accept the risks inherent in such participation of which the ordinary prudent person is or should be aware. Patrons have a duty to exercise good judgement and act in a responsible manner while using the amusement ride, device or attraction and to obey all oral and written warnings, or both, prior to or during participation, or both.

#### PHOTO NOTICE

Please be advised in advance that at the Vortex Rollercoaster and Timber Falls Log Ride, your picture will be taken by our automatic photo system. Due to loading efficiencies, your picture may be taken with another Guest. Guests may choose to purchase their photo upon exiting the ride. Should you have any questions or concerns, please visit Guest Services prior to riding these two rides.
